Objective: Medarametla Anjamma Mastan Rao College of Pharmacy had successfully organised A One Week Faculty Development Program on Advances and Recent Breakthroughs in the Field of Pharmaceutical Biotechnology. The main objective of the program is to train and enhance the knowledge of the faculty members about

Topics Covered:

- Advances in Pharmaceutical Biotechnology: Recent Progress and Future Applications.
- Recent Trends in Pharmaceutical Biotechnology.
- Role of Pharmaceutical Biotechnology in therapy: A Future Prospective.

Outcome of the Programme: An open feedback was collected from the faculty members and from the results of analysis and they convey that the program was very helpful to understand numerous method and techniques available in Pharmaceutical Biotechnology field. Faculty also gained role of biotechnology in development of products for therapeutic use include growth factors, cytokines, hormones, receptors, enzymes, clotting factors, monoclonal antibodies, vaccines, DNA vaccines and

About Programme:-

The Faculty Development Program (FDP) is intended to provide financial support to facilitate the updating of knowledge, skills and to provide introductory training opportunities to teachers employed in a variety of fields. The program aims to improve the academic and intellectual environment of the institution by providing opportunities for faculty members to conduct research work. This program is designed to improve teaching and other skills of faculty and keeping them up to date with the latest materials and methods. Provides an opportunity to acquire knowledge of current technological developments in pharmaceutical fields. It is not only to encourage professional practice related to technical education, but also motivate the faculty to create a competitive teaching and learning environment.

- **Designation:** Professor
- **Department:** Pharmaceutical Analysis
- **Organisation:** St Ann's College of Pharmacy, Chirala
- **Email id:** samson.pharma@gmail.com
- **Contact Number:** 7013636911

Objective: Medarametla Anjamma Mastan Rao College of Pharmacy had successfully organised A Five Days E-Faculty Development Program on Data Analytics and Machine Language (Online Mode) in association with Indian Pharmaceutical Association (IPA). The main objective of the program is to train the faculty members about various Data Analytical techniques and Machine Language.

Topics Covered:

- Difference between traditional data analytics and machine learning analytics.
- Basics and Application's in Data Analytics and Machine Language.
- Various Data analytical techniques and Machine languages used in Pharmaceutical field.

Outcome of the Programme: Feedback forms were collected from the participants and that they were happy to attend to this program and were felt that it was really helpful to understand how to use languages and data analytics in Pharmaceutical Sciences. Participants felt that, how the new analytical methods used in industry in drug development process, improve efficacy of the drug, enhance safety and risk management and target specific treatment to the patient with less side effects.

- **Designation:** Professor
- **Department:** Pharmaceutical Chemistry
- **Organisation:** Hindu College of Pharmacy, Guntur
- **Email Id:** drkravikumar@hcopguntur.ac.in
- **Contact Number:** 9441797744

Objective: Medarametla Anjamma Mastan Rao College of Pharmacy had successfully organised A One Week E-Faculty Development Program on ICT Tools used in Pharmaceutical Chemistry (Online Mode).

Topics Covered:

- Importance and need of various ICT tools used in Drug discovery.
- ICT Tools used in various in various Physical Methods of Analysis.
- ICT tools in modern drug discovery Introduction to QSAR, SBDD and LBDD

Outcome of the Programme: The major outcome of the program is to inculcate the knowledge of faculty members and to upgrade their knowledge about current innovative ICT Tools used in Pharmaceutical Chemistry. By this faculty development member's staff members learned improving adherence, data integrity and reliability, and enhance final product quality and they convey that it's very helpful to the dispensing & hospital pharmacist role in safety, efficacy and efficiency. Participants convey that it is very useful to know ICT tools used in industry to identify potential lead molecules from huge compound libraries and responded satisfactorily and happily though the feedback forms.

About College :-

Medarametla Anjamma Mastanrao (M.A.M) College of Pharmacy is one of the best premier and iconic pharmacy college established in 2007 by M.A.M Memorial service society with a group of eminent academicians and professionals from different fields with a mission to offer quality education with a motto to provide education to all and contribute it self to the millennium development goals. Since its inception, with in a short time the college has been upgraded to PG level of education.

Courses Offered:

D.PHARMACY - 2 YEARS

B.PHARMACY – 4 YEARS

PHARM.D – 6 YEARS

M.PHARMACY

PHARMACEUTICS

PHARMACEUTICAL ANALYSIS

PHARMACOLOGY

PHARMACEUTICAL -

REGULATORY AFFAIRS

PHARMACEUTICAL QUALITY -

ASSURANCE

About Programme:-

The Faculty Development Program (FDP) is intended to provide financial support to facilitate the updating of knowledge, skills and to provide introductory training opportunities to teachers employed in a variety of fields. The program aims to improve the academic and intellectual environment of the institution by providing opportunities for faculty members to conduct research work. This program is designed to improve teaching and other skills of faculty and keeping them up to date with the latest materials and methods. Provides an opportunity to acquire knowledge of current technological developments in pharmaceutical fields. It is not only to encourage professional practice related to technical education, but also motivate the faculty to create a competitive teaching and learning environment.

PROGRAMME REPORT

Name of the Programme: A One Week Online Faculty Development Program on Various Software's available and used in Experimental Pharmacology and Toxicology

Date: 18.01.2022 to 24.01.2022

Details of the Resource Person

- **Name:** Dr. B. Satya Prasad
- **Designation:** Professor
- **Department:** Pharmacology
- **Organisation:** Narasaraopeta Institute of Pharmaceutical Sciences, Narasaraopet
- **Email Id:** satyaprasadsri@gmail.com
- **Contact Number:** 7036907343

Objective: Medarametla Anjamma Mastan Rao College of Pharmacy had successfully organised "A One Week Online Faculty Development Program on Various Software's available and used in Experimental Pharmacology and Toxicology". The main objective of the program is to train the faculty members about

Topics Covered:

- Computer-simulated pharmacology experiments for pharmacy graduates.
- Software tools used to develop anti-cancer targeted specific drugs.
- Development of hormone replacement in postmenopausal women by software tools
- Current software tools available in online and its usage in drug development process.

Outcome of the Programme: An open feedback was collected from the faculty members and they convey that the program was very helpful to understand and enhance the skills to use software tools in drug development process. In the concerned program the resource person explained in detail note on windows display software's for flash and visual clarity on complete video demonstrations of various protocols such as isolation and mounting of animal tissues, anti-cancer targeted specific drugs and hormonal replacement therapy. Hence the faculty fully satisfied, and they gave an open positive feedback as like they said this program was very useful to conduct practicals in pharmacology.

PROGRAMME REPORT

Name of the Programme: A One Week Faculty Development Program on Computational Approaches Applied to Drug Discovery and Drug Product Development

Date: 16.05.2022 to 22.05.2022

Details of the Resource Person

- **Name:** Dr. Katakam Prakash
- **Designation:** Professor and Principal
- **Department:** Pharmaceutics
- **Organisation:** Indira Pharmacy College, Hyderabad
- **Email Id:** pkatakam9@gmail.com
- **Contact Number:** 07588178174

Objective: Medarametla Anjamma Mastan Rao College of Pharmacy had successfully organised A One Week Faculty Development Program on Computational Approaches Applied to Drug Discovery and Drug Product Development in association with Indian Pharmaceutical Association (IPA). The main objective of the program is to train the faculty members about various latest research techniques and Software's used in Drug Discovery and Development Process.

Topics Covered:

- Various softwares used in identifying drug molecule in drug discovery process
- Research in modelling softwares in 3D printing of pharmaceuticals.
- Softwares tools used in evaluation on pharmacokinetic parameters.
- Applications of QSAR in drug design and drug development.

Outcome of the Programme: The major outcome of the program is to inculcate the knowledge of faculty members and to upgrade their knowledge, by this FDP provided a great possibility for the staff members to benefit the innovative ideas and scientific information associated with how to use new software's used in drug development process especially 3D printing. It is used to print tablets

with complex structures to check the release rate or it can print tablets on request to make the dose and dosage more precise. The resource person explained objectives of 3D printing very huge in manner and he also explained the advantages over this technique were especially it increases the medication adherence by decreasing the dose frequency.

PROGRAMME REPORT

Name of the Programme: A one week faculty development program on recent advances & innovation in identification and estimation of new Different analytical techniques (Online Mode)

Date: 20.06.2022 to 26.06.2022

Details of the Resource Person

- **Name:** DR. SK. Abdhul Rahaman
- **Designation:** Professor
- **Department:** Phamaceutics
- **Organization:** Nirmala Pharmacy College, Mangalagiri, Andhra Pradesh
- **Email Id:** rahamanphd@gmail.com
- **Contact Number:** 9849702527

Objective: Medarametla Anjamma Mastan Rao College of Pharmacy had successfully organized A One Week Faculty Development Program on Recent Advances in Chemical Sciences in association with Indian Pharmaceutical Association (IPA). The main objectives of this Programme is to determine how molecular fragmentation and structural elucidation of natural /synthetic drugs by LC-MS.

Topics Covered:

- Application of LC/MS
- IR spectrum of carboxylic acids
- Requirements of a molecule
- Qualitative and quantities tools
- Chromatography HPLC
- HPLC instrumentation

Outcome of the Programme: Faculty members were enthusiastically attended the programme and they conveyed that this training programme provided is a great platform for the staff members to benefit identification and estimation of new drug by different analytical techniques. Faculty members acquired greater knowledge about various aspects of HPLC, LCMS and current methods used to analyse the new drug entities in the market. From these techniques staff members also learned how

About Programme:-

The Faculty Development Program (FDP) is intended to provide financial support to facilitate the updating of knowledge, skills and to provide introductory training opportunities to teachers employed in a variety of fields. The program aims to improve the academic and intellectual environment of the institution by providing opportunities for faculty members to conduct research work. This program is designed to improve teaching and other skills of faculty and keeping them up to date with the latest materials and methods. Provides an opportunity to acquire knowledge of current technological developments in pharmaceutical fields. It is not only to encourage professional practice related to technical education, but also motivate the faculty to create a competitive teaching and learning environment.
