A ONE DAY WEBINAR ON RESEARCH METHODOLOGY & PHARMACOLOGICAL SCREENING OF ANTI DIABETIC DRUGS

Programme schedule

18-09-2021

Organized by:-

**MEDARAMETLA ANJAMMA MASTAN
RAO COLLEGE OF PHARMACY**

(Approved by AICTE, PCI & Affiliated to ANU)
ISO 9001 : 2008 & UGC 2(F) & 12(B)

PRINCIPAL
M.A.M. College of Pharmacy
KESANUPALLI (Po.), Narasaraopet (M.D.)
Guntur (Dist), Pin : 522 601
**Venue:-
Seminar Hall**

M.A.M. COLLEGE OF PHARMACY
Kesanupally, Narasaraopet-522601

(Approved by PCI, New Delhi & Permanently Affiliated to Acharya Nagarjuna University)
(Recognized Under UGC Section 2F & 12B of UGC Act)
Mobile: 9848498714 / 9951420612 | email: prins2mam@gmail.com
Website: www.mamcollegeofpharmacy.ac.in

About College :-

Medarametla Anjamma Mastanrao (M.A.M) College of Pharmacy is one of the best premier and iconic pharmacy college established in 2007 by M.A.M Memorial service society with a group of eminent academicians and professionals from different fields with a mission to offer quality education with a motto to provide education to all and contribute itself to the millennium development goals. Since its inception, with in a short time the college has been upgraded to PG level of education.

Courses Offered:

D.PHARMACY - 2 YEARS

B.PHARMACY - 4 YEARS

PHARM.D - 6 YYEARS

M.PHARMACY

PHARMACEUTICS

PHARMACEUTICAL ANALYSIS

PHARMACOLOGY

PHARMACEUTICAL REGULATORY AFFAIRS

PHARMACEUTICAL QUALITY ASSURANCE

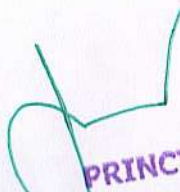

Objectives of the Programme:-

Type 2 diabetes mellitus (T2DM) is a global pandemic, as evident from the global cartographic picture of diabetes by the International Diabetes Federation. Diabetes mellitus is a chronic, progressive, incompletely understood metabolic condition chiefly characterized by hyperglycemia. Impaired insulin secretion, resistance to tissue actions of insulin, or a combination of both are thought to be the commonest reasons contributing to the path physiology of T2DM, a spectrum of disease originally arising from tissue insulin resistance and gradually progressing to a state characterized by complete loss of secretory activity of the beta cells of the pancreas. T2DM is a major contributor to the very large rise in the rate of non-communicable diseases affecting developed as well as developing nations

Topics Covered:-

- Introduction
- Clinical Diagnosis of Type 2 Diabetes
- Clinical Management of Type 2 Diabetes
- Lifestyle Measures
- Pharmacologic Management

PRINCIPAL
M.A.M. College of Pharmacy
KESANUPALLI (Po.), Narasaraopet (tda.),

PHARMACEUTICS

PHARMACEUTICAL ANALYSIS

PHARMACOLOGY

PHARMACEUTICAL REGULATORY AFFAIRS

PHARMACEUTICAL QUALITY ASSURANCE

Objectives of the Programme:-

Objectives of intellectual property refer to the purposes of protection granted to creators of innovative intellectual creations. Intellectual property (IP) rights serve the important purpose of ensuring that creators will be recognized for their efforts and protected from infringement. When they are sure that their works are protected, creators are more likely to come up with more new creations. As such, IP also helps to promote creativity and innovation. There are many different forms of IP, each of which is protected by a certain type of IP rights..

Topics Covered:-

- *Literary works*
- *Artistic works*
- *Scientific works*
- *Broadcasts*
- *Phonograms*
- *Performances of performing artists*
- *Scientific discoveries*
- *Inventions in any field of human endeavor*
- *Trademarks*
- *Service marks*
- *Commercial names*

PHARMACEUTICAL ANALYSIS

PHARMACOLOGY

PHARMACEUTICAL REGULATORY AFFAIRS

PHARMACEUTICAL QUALITY ASSURANCE

Objectives of the Programme:-

In order to take forward the National IPR Policy and to enhance creativity, innovation, competitiveness and economic growth in India, it is imperative to harness IP. With phenomenal growth of the Indian Economy it is vital that IPRs are generated in India and then legally protected and exploited. Inadequate knowledge about the rights of individuals to protect their ideas and innovations and low awareness about the procedures involved in obtaining an IPR has hindered India's growth in Intellectual Property. With India's potential and its importance in the global arena, it's time we rise and become a leader in innovation and Intellectual Property.

Topics Covered:-

- Cell for IPR Promotion and Management (CIPAM)
- Allocation of Funds
- Area of Coverage
- Name of the Implementing Agency
- Scheme for IPR Awareness
- Salient Features of the Scheme
- Outcome of the Scheme

Objectives of the Programme:-

The use of artificial intelligence (AI) has been increasing in various sectors of society, particularly the pharmaceutical industry. In this review, we highlight the use of AI in diverse sectors of the pharmaceutical industry, including drug discovery and development, drug repurposing, improving pharmaceutical productivity, and clinical trials, among others; such use reduces the human workload as well as achieving targets in a short period of time. We also discuss crosstalk between the tools and techniques utilized in AI, ongoing challenges, and ways to overcome them, along with the future of AI in the pharmaceutical industry.

About College :-

Medarametla Anjamma Mastanrao (M.A.M) College of Pharmacy is one of the best premier and iconic pharmacy college established in 2007 by M.A.M Memorial service society with a group of eminent academicians and professionals from different fields with a mission to offer quality education with a motto to provide education to all and contribute itself to the millennium development goals. Since its inception, with in a short time the college has been upgraded to PG level of education.

Courses Offered:

D.PHARMACY - 2 YEARS

B.PHARMACY - 4 YEARS

PHARM.D - 6 YEARS

M.PHARMACY

PHARMACEUTICS

PHARMACEUTICAL ANALYSIS

PHARMACOLOGY

PHARMACEUTICAL REGULATORY AFFAIRS

PHARMACEUTICAL QUALITY ASSURANCE

Objectives of the Programme:-

Analytical method development, validation, and transfer are key elements of any pharmaceutical development program. This technical brief will focus on development and validation activities applicable to drug products. Often considered routine, the benefit that well-developed analytical methods can contribute to the overall developmental time and cost efficiency of a program is undervalued.

Topics Covered:-

- Introduction to Spectroscopy
- UV-Vis Spectroscopy
- Introduction to Chromatography
- HPLC
- Analytical Method Development
- Validation
- Importance of Validation
- Types of Analytical Procedures to be Validated

The screenshot shows a video call interface. In the center is a man with glasses and a light blue shirt. To his right is a presentation slide titled "Optimization of RP-HPLC". The slide lists several criteria for optimization:

- to separate better (higher resolution),
- to separate faster (shorter retention time),
- to see more (lower detection limit),
- to separate at lower cost (economic effort),
- to separate more (higher throughput).

Below the man is a location overlay from Google Maps showing "Narasaraopeta, Andhra Pradesh, India" with coordinates "Lat 16.239412°" and "Long 80.051802°". The date and time are "10/05/22 10:52 AM".

PHARM.D - 6 YEARS

M.PHARMACY

PHARMACEUTICS

PHARMACEUTICAL ANALYSIS

PHARMACOLOGY

PHARMACEUTICAL REGULATORY AFFAIRS

PHARMACEUTICAL QUALITY ASSURANCE

Objectives of the Programme:-

Clinical Data Management (CDM) is a critical phase in clinical research, which leads to generation of high-quality, reliable, and statistically sound data from clinical trials. This helps to produce a drastic reduction in time from drug development to marketing. Team members of CDM are actively involved in all stages of clinical trial right from inception to completion. They should have adequate process knowledge that helps maintain the quality standards of CDM processes. Various procedures in CDM including Case Report Form (CRF) designing, CRF annotation, database designing, data-entry, data validation, discrepancy management, medical coding, data extraction, and database locking are assessed for quality at regular intervals during a trial In the present scenario

Topics Covered:-

- Regulations, Guidelines, and Standards in CDM
- The CDM Process
- Review and finalization of study documents
- Database designing
- Data collection
- Data validation
- Discrepancy management
- Medical coding
- Database locking

PHARMACEUTICS

PHARMACEUTICAL ANALYSIS

PHARMACOLOGY

PHARMACEUTICAL REGULATORY AFFAIRS

PHARMACEUTICAL QUALITY ASSURANCE

Objectives of the Programme:-

It provides scientific analysis of the impact, risks and benefits of medicines or a medicinal product. The trials are done before initiating the products in the market. The tests are performed at different stages and after-launch supervision is maintained to scrutinize the safety and monitor the side effects if any. It is the best time to become part of this fast evolving industry. And an educational qualification in clinical research will help you suffice.

Topics Covered:-

- Clinical Research Co-ordinator (CRC)
- Clinical Research Associate (CRA)
- Clinical Monitor or Trial Monitor
- Research Nurses or Site Managers
- Data Manager
- Clinical Research Scientist
- The Biostatistician
- The Clinical Quality Assurance Auditor (CQA)
- Clinical Safety Analyst

The image is a screenshot of a Zoom meeting. On the left, a presentation slide titled "Mass Analyser" is displayed. On the right, a video feed of a man is visible. At the bottom, a Google Maps location card is shown.

Mass Analyser

- They deflect ions down a curved tubes in a magnetic fields based on their kinetic energy determined by the mass, charge and velocity.
- The magnetic field is scanned to measure different ions.
- Types of Mass analyzer:-
 - (1) Quadrapole mass filter.
 - (2) Time of flight
 - (3) Ion trap
 - (4) Fourier transform ion cyclotron resonance (FT-ICR)

PHARMACEUTICS

PHARMACEUTICAL ANALYSIS

PHARMACOLOGY

PHARMACEUTICAL REGULATORY AFFAIRS

PHARMACEUTICAL QUALITY ASSURANCE

Objectives of the Programme:-

Drug abuse remains one of the biggest threats to health and the society in general. It's one of the major issues that the world is struggling with and which need to be completely eliminated from the society. Every year, the International Day against Drug Abuse and Illicit Trafficking is observed on June 26. The main aim of this day is to spread awareness about the physical and psychological impact of substance abuse, drug overdose deaths, and drugs-related problems across the globe.

Topics Covered:-

- Background
- World Drug Report
- UNODC
- Drug Trafficking
- The Real Criminals
- Family Plays A Part
- Teachers Play A Part

About College :-

Medarametla Anjamma Mastanrao (M.A.M) College of Pharmacy is one of the best premier and iconic pharmacy college established in 2007 by M.A.M Memorial service society with a group of eminent academicians and professionals from different fields with a mission to offer quality education with a motto to provide education to all and contribute it self to the millennium development goals. Since its inception, with in a short time the college has been upgraded to PG level of education.

Courses Offered:

B.PHARMACY – 4 YEARS

PHARM.D – 6 YEARS

M.PHARMACY

PHARMACEUTICS

PHARMACEUTICAL ANALYSIS

PHARMACOLOGY

PHARMACEUTICAL REGULATORY AFFAIRS

PHARMACEUTICAL QUALITY ASSURANCE

Objectives of the Programme:-

Several of the IPRs mentioned above are relevant to the agricultural sector in that they can be used to protect goods or services produced in the agricultural sector.3 these are mainly patents, plant breeders' rights, trademarks, geographical indications and trade secrets. It is possible to include lay-out designs for chips that are designed to perform certain functions related to agriculture, but these are assumed to be incorporated in machines produced in the industrial sector. Similarly, scientific papers or television programmers covering ideas related to agriculture are not seen as directly being produced in this sector.

Topics Covered:-

- Introduction
- IPRS Relevant to Agriculture
- International Intellectual Property Law
- India's International obligations on IPRS
- The Public Debate In India on Legislative Changes on IPR
- Conclusions And Policy Prescriptions

B.PHARMACY – 4 YEARS

PHARM.D – 6 YEARS

M.PHARMACY

PHARMACEUTICS

PHARMACEUTICAL ANALYSIS

PHARMACOLOGY

PHARMACEUTICAL REGULATORY AFFAIRS

PHARMACEUTICAL QUALITY ASSURANCE

Objectives of the Programme:-

. Research methodologies are broadly classified into two main categories: Quantitative research methods and Qualitative research methods. Quantitative research is one which is based on quantitative terms and involves collection of numerical data, analyzing it and drawing conclusions using numbers. Qualitative research on other hand, is one which is done using non-numerical and unquantifiable elements like feelings, emotion, sound etc. Methodology of research indicates and influences the overall validity and reliability of whole research to be conducted. Methodology answers mainly two questions regarding research that are how the data used for study was acquired and how it was analyzed to derive out the findings.

Topics Covered:-

- o Develops Better Insight Into Topic
- o Provides Systematic Structure
- o Enhance The Research Quality
- o Derive Better Solutions
- o Aids In Decision Making
- o Inculcates Logical And Systematic Thinking

PHARMACEUTICS

PHARMACEUTICAL ANALYSIS

PHARMACOLOGY

PHARMACEUTICAL REGULATORY AFFAIRS

PHARMACEUTICAL QUALITY ASSURANCE

Objectives of the Programme:-

The future is shaped by entrepreneurs who have the ability to create and innovate in a quick succession. So do majority of entrepreneurs possess these skills which enable them to perform better in their entrepreneurial endeavours? Starting an enterprise is always intertwined with many uncertainties and vulnerabilities. To tackle these uncertainties successfully, what is required of the entrepreneur is to inculcate a growth mind-set. Entrepreneurs always do not have the answer to the uncertainties faced by them; what is in their hand is to see those as opportunities to learn and grow. This is the mind-set which entrepreneurship advocates and rewards.

Topics Covered:-

- *Functional Demands of Entrepreneurship*
- *Entrepreneurial Intentions And Business Growth*
- *Training Requirements of Growth-Minded Entrepreneurs*
- *Effectuation*
- *Role of Experiential Learning*

M.PHARMACY

PHARMACEUTICS

PHARMACEUTICAL ANALYSIS

PHARMACOLOGY

PHARMACEUTICAL REGULATORY AFFAIRS

PHARMACEUTICAL QUALITY ASSURANCE

Objectives of the Programme:-

A research problem is a specific issue, difficulty, contradiction, or gap in knowledge that you will aim to address in your research. You might look for practical problems aimed at contributing to change, or theoretical problems aimed at expanding knowledge. Bear in mind that some research will do both of these things, but usually the research problem focus on one or the other. The type of research problem you choose depends on your broad topic of interest and the type of research you want to do.

Topics Covered:-

- How to Define a Research Problem | Ideas & Examples
- Why is the research problem important?
- Identify a broad problem area
- Practical research problems
- Theoretical research problems
- Learn more about the problem
- Context and background
- Specificity and relevance

B.PHARMACY – 4 YEARS

PHARM.D – 6 YEARS

M.PHARMACY

PHARMACEUTICS

PHARMACEUTICAL ANALYSIS

PHARMACOLOGY

PHARMACEUTICAL REGULATORY AFFAIRS

PHARMACEUTICAL QUALITY ASSURANCE

Objectives of the Programme:-

Intellectual property is a key concern in the quest for growth, development and competitiveness. Advancement in knowledge broadly conceived is a key driver of economic prosperity in the twenty-first century. The ongoing revolution in information and communication technologies (ICT) has dramatically reduced the costs of creating, processing and transmitting knowledge, both nationally and across borders. The pace of innovation has accelerated significantly. These twin developments, of closer international economic integration and more rapid innovation, create new challenges for IP regimes and policy making.

Topics Covered:-

1. Introduction
2. Intellectual Property and Economic Performance
3. Introduction
4. The role of intellectual property in the innovation process
5. Evidence on the role of intellectual property rights in economic performance
6. Commercialization of Intellectual Assets
 - A. Introduction
 - B. Capacity to commercialize the invention
 - C. Legal vehicles for the commercialization of IP
 - D. IPR enforcement as a pre-condition for successful commercialization
7. Creating an Enabling Environment for the Transfer of Technology from Research
8. Institutions to the Business Sector
 - A. Introduction
 - B. Benefits of university technology transfer and the importance of strategic IP management
 - C. Financial expectations and budget management

A ONE DAY SEMINAR
ON

RESEARCH PERSPECTIVE IN ENTREPRENEUR

Programme schedule

20.3.2021

Organized by:-

**MEDARAMETLA ANJAMMA MASTAN
RAO COLLEGE OF PHARMACY**

(Approved by AICTE, PCI & Affiliated to ANU)
ISO 9001 : 2008 & UGC 2(F) & 12(B)

-: Venue:-

PRINCIPAL Seminar Hall
M.A.M. College of Pharmacy
KESANUPALLI (Po), Narasaraopet (M.D.),
Guntur (Dist), Pin : 522 601
M.A.M. COLLEGE OF PHARMACY

Approved by PCI, New Delhi & Permanently Affiliated to Acharya Nagarjuna University
(Recognized Under UGC Section 2F & 12B of UGC Act)
Mobile: 9848498714 / 9951420612 | email: prins2mam@gmail.com
Website: www.mamcollegeofpharmacy.ac.in

About College :-

Medarametla Anjamma Mastanrao (M.A.M) College of Pharmacy is one of the best premier and iconic pharmacy college established in 2007 by M.A.M Memorial service society with a group of eminent academicians and professionals from different fields with a mission to offer quality education with a motto to provide education to all and contribute it self to the millennium development goals. Since its inception, with in a short time the college has been upgraded to PG level of education.

Courses Offered:

B.PHARMACY – 4 YEARS

PHARM.D – 6 YEARS

M.PHARMACY

PHARMACEUTICS

PHARMACEUTICAL ANALYSIS

PHARMACOLOGY

PHARMACEUTICAL REGULATORY AFFAIRS

PHARMACEUTICAL QUALITY ASSURANCE

Objectives of the Programme:-

Ever wondered what it takes to build a flourishing business? Aiming to provide maximum sales and profit, business research helps you to gather comprehensive information pertaining to your business and accordingly making relevant changes if required. So, in this process of being successful, we gather all types of data in order to better define our strategies and understand what products or services customers really want. And in case, you're planning to expand your business, research can help you determine your odds of positive results. In this blog, we'll help you understand the basics of research and analysis.

Topics Covered:-

- Types & Methods
 - o Interview
 - o Focus Groups
 - o Case Study Research
 - o Ethnographic Research
- Quantitative Research Methods
 - o Survey
 - o Correlation Research
 - o Experimental Research
- Advantages and Disadvantages of Business Research
- Process
- Scope of Business Research
- Role of Business Research

PHARM.D – 6 YEARS

M.PHARMACY

PHARMACEUTICS

PHARMACEUTICAL ANALYSIS

PHARMACOLOGY

PHARMACEUTICAL REGULATORY AFFAIRS

PHARMACEUTICAL QUALITY ASSURANCE

Objectives of the Programme:-

The field of pharmaceutical chemistry arises from the combination of synthetic organic chemistry with pharmacology and medicinal sciences. It encompasses the design, chemical synthesis and development of active pharmaceutical ingredients (APIs), or bio-active molecules. It enables a student to have a detailed knowledge of the chemical aspects of identification, followed by systematic, thorough synthetic alteration of new chemical entities to make them suitable for therapeutic use. It includes synthetic and computational aspects of the study of existing drugs and agents in development in relation to their bioactivities (biological activities and properties), i.e., understanding their structure-activity relationships (SAR). Pharmaceutical chemistry is focused on quality aspects of medicines and aims to assure fitness for purpose of medicinal products.

Topics Covered:-

- Eligibility
- Programme Duration
- Registration
- Examination & Certification
- Placement Assistance & Corporate Relations
- Future career prospects of Pharmaceutical Chemistry training

PHARM.D – 6 YEARS

M.PHARMACY

PHARMACEUTICS

PHARMACEUTICAL ANALYSIS

PHARMACOLOGY

PHARMACEUTICAL REGULATORY AFFAIRS

PHARMACEUTICAL QUALITY ASSURANCE

Objectives of the Programme:-

The corona virus disease 2019 (COVID-19) impact on the mental health of healthcare workers is extremely detrimental. It is imperative that the psychological health of all healthcare workers be protected. However, an often overlooked member of the healthcare frontline is the pharmacist. Pharmacists provide many types of essential services during the pandemic, which often cannot be done from a remote location. Being frontline healthcare workers, pharmacists have experienced an increase in the number of patients seen, the amount of screening and triage being done, the amount of COVID-19 information being delivered, the number of medication shortages, and the amount of workplace harassment taking place.

Topics Covered:-

- *First point of patient contact*
- *Patient triage*
- *Information dissemination*
- *Managing medication shortages*
- *Harassment from patients*
- *Significance*
- *Future directions*

PHARM.D – 6 YEARS

M.PHARMACY

PHARMACEUTICS

PHARMACEUTICAL ANALYSIS

PHARMACOLOGY

PHARMACEUTICAL REGULATORY AFFAIRS

PHARMACEUTICAL QUALITY ASSURANCE

Objectives of the Programme:-

Intellectual property (IP) pertains to any original creation of the human intellect such as artistic, literary, technical, or scientific creation. Intellectual property rights (IPR) refers to the legal rights given to the inventor or creator to protect his invention or creation for a certain period of time. These legal rights confer an exclusive right to the inventor/creator or his assignee to fully utilize his invention/creation for a given period of time. It is very well settled that IP play a vital role in the modern economy. It has also been conclusively established that the intellectual labor associated with the innovation should be given due importance so that public good emanates from it.

Topics Covered:-

- *types of Intellectual Properties and their Description*
- *Role of Undisclosed Information in Intellectual Property*
- *Rationale of Patent*
- *Rationale of License*
- *The Role of Patent Cooperation Treaty*
- *Management of Intellectual Property in Pharmaceutical Industries*
- *Nature of Pharmaceutical Industry*
- *Some Special Aspects of Drug Patent Specification*

PHARMACEUTICS

PHARMACEUTICAL ANALYSIS

PHARMACOLOGY

PHARMACEUTICAL REGULATORY AFFAIRS

PHARMACEUTICAL QUALITY ASSURANCE

Objectives of the Programme:-

A typical research statement follows a typical pattern in regard to layout, and often includes features of other research documents including an abstract, research background and goals. Often these reports are tailored towards specific audiences, and may be used to showcase job proficiency or underline particular areas of research within a program.

Topics Covered:-

- Purpose of a Research Statement
- Content of the Research Statement
- Research Statement Considerations for Recent Research
- Research Statement Considerations for Future Research
- Research Statement Considerations for Details
- Research Statements for Quantitative Research
- Research Statements for Qualitative Research
- Types of Research Statements
- Bad Practices of Research Statements

PHARM.D – 6 YEARS

M.PHARMACY

PHARMACEUTICS

PHARMACEUTICAL ANALYSIS

PHARMACOLOGY

PHARMACEUTICAL REGULATORY AFFAIRS

PHARMACEUTICAL QUALITY ASSURANCE

Objectives of the Programme:-

Sustainable implant is an urban typology that acts as a decentralized infrastructure provision hub on the neighborhood or district scale. Sustainable implants provide integrated infrastructure services that maintain cycles of energy, water and material, as well as provide social and economic returns. as an answer to the problem of scale versus innovation in infrastructure; where in infrastructure benefits from increasing returns to scale but suffer from extremely slow rate of change and turnover.[1] To answer this problem, the sustainable implant is an instrument for mid-scale facilitation of alternative system innovation. The sustainable implant is a synthesis of techniques for sustainable processing of urban flows within an ecological processing device. The objective of a sustainable implant is to generate qualitative and quantitative improvements for utility service provision.

Topics Covered:-

- *Development of the sustainable implant concept*
- *Criteria for sustainable implants*
- *Examples of Sustainable Implants*
- *EVA Lanxmeer*
- *Construction and operation*
- *Infrastructure services*
- *Kolding Wastewater Pyramid*

A ONE DAY SEMINAR ON

IPR IN AGRICULTURE RESEARCH FOR DEVELOPMENT

Programme schedule

19.10.2019

Organized by:-

**MEDARAMETLA ANJAMMA MASTAN
RAO COLLEGE OF PHARMACY**

(Approved by AICTE, PCI & Affiliated to ANU)
ISO 9001 : 2008 & UGC 2(F) & 12(B)

PRINCIPAL

M.A.M. College of Pharmacy
KESANUPALLI (Po.), Narasaraopet (Md.),
Guntur (Dt.), Pin : 522 601.

**-: Venue:-
Seminar Hall**

M.A.M COLLEGE OF PHARMACY

Kesanupally, Narasaraopet-522601

(Approved by PCI, New Delhi & Permanently Affiliated to Acharya Nagarjuna University)
(Recognized Under UGC Section 2F & 12B of UGC Act)
Mobile: 9848498714 / 9951420612 | email: prins2mam@gmail.com
Website: www.mamcollegeofpharmacy.ac.in

About College :-

Medarametla Anjamma Mastanrao (M.A.M) College of Pharmacy is one of the best premier and iconic pharmacy college established in 2007 by M.A.M Memorial service society with a group of eminent academicians and professionals from different fields with a mission to offer quality education with a motto to provide education to all and contribute it self to the millennium development goals. Since its inception, with in a short time the college has been upgraded to PG level of education.

Courses Offered:

B.PHARMACY – 4 YEARS

PHARM.D – 6 YEARS

M.PHARMACY

PHARMACEUTICS

PHARMACEUTICAL ANALYSIS

PHARMACOLOGY

PHARMACEUTICAL REGULATORY AFFAIRS

PHARMACEUTICAL QUALITY ASSURANCE

Objectives of the Programme:-

Several of the IPRs mentioned above are relevant to the agricultural sector in that they can be used to protect goods or services produced in the agricultural sector.³ these are mainly patents, plant breeders' rights, trademarks, geographical indications and trade secrets. It is possible to include lay-out designs for chips that are designed to perform certain functions related to agriculture, but these are assumed to be incorporated in machines produced in the industrial sector. Similarly, scientific papers or television programmers covering ideas related to agriculture are not seen as directly being produced in this sector

Topics Covered:-

- Introduction
- IPRS Relevant to Agriculture
- International Intellectual Property Law
- India's International obligations on IPRS
- The Public Debate In India on Legislative Changes on IPR
- Conclusions And Policy Prescriptions

PHARMACOLOGY

PHARMACEUTICAL REGULATORY AFFAIRS

PHARMACEUTICAL QUALITY ASSURANCE

Objectives of the Programme:-

This chapter provides an overview of key factors to consider in designing and implementing effective entrepreneurship policies. It discusses the current objectives and challenges of entrepreneurship policy. It presents good practice principles for policy design and draws lessons for successful policy development and implementation. The chapter also highlights the importance of monitoring and evaluation for impactful entrepreneurship policies and programmers.

Topics Covered:-

- Objectives of entrepreneurship policy
- The importance of regional conditions and policies
- Principles for successful entrepreneurship policy design
- Lessons from the international policy case studies
- Monitoring and evaluation
- Capacity building is an essential part of successful delivery
- The importance of monitoring and evaluation
- Fundamentals of monitoring and evaluation

B.PHARMACY – 4 YEARS

PHARM.D – 6 YEARS

M.PHARMACY

PHARMACEUTICS

PHARMACEUTICAL ANALYSIS

PHARMACOLOGY

PHARMACEUTICAL REGULATORY AFFAIRS

PHARMACEUTICAL QUALITY ASSURANCE

Objectives of the Programme:-

Social Research may be defined as a scientific undertaking which by means of logical and systematized techniques, aims to discover new factors, verify old facts, analyze their sequence, interrelationship and causal explanation which were derived within an appropriate theoretical frame of reference, develop new scientific tools, concepts and theories which would facilitate reliable and valid study of human behavior. A researcher's primary goal, distant and immediate, is to explore and gain an understanding of human behavior and social life and thereby gain a greater control over time.

Topics Covered:-

- *Experimental Research Design*
- *Sample Design*
- *Research Variables - Dependent and Independent Variables*
- *Scientific Method in Business Research*
- *Interpretation of Research Data*
- *Questionnaires: Meaning and Types*
- *Significance of Research*
- *Research Design*

PHARMACEUTICS

PHARMACEUTICAL ANALYSIS

PHARMACOLOGY

PHARMACEUTICAL REGULATORY AFFAIRS

PHARMACEUTICAL QUALITY ASSURANCE

Objectives of the Programme:-

Today, children and young people are global citizens, powerful agents of change and the next generation of caregivers, scientists, and doctors. Any crisis presents the opportunity to help them learn, cultivate compassion and increase resilience while building a safer and more caring community. Having information and facts about COVID-19 will help diminish students' fears and anxieties around the disease and support their ability to cope with any secondary impacts in their lives. This guidance provides key messages and considerations for engaging school administrators, teachers and staff, parents, caregivers and community members, as well as children themselves in promoting safe and healthy schools.

Topics Covered:-

1. **FACTS ABOUT COVID-19**
 - COVID-19
 - Non-Pharmaceutical Interventions (NPIs)
2. **INTRODUCTION**
3. **SCHOOL ADMINISTRATORS, TEACHERS AND STAFF**
 - Key Messages & Actions • Checklist
4. **PARENTS/CAREGIVERS AND COMMUNITY MEMBERS**
 - Key Messages & Actions
 - Checklist
5. **STUDENTS AND CHILDREN**
 - Checklist
 - Age-specific health education

About College :-

Medarametla Anjamma Mastanrao (M.A.M) College of Pharmacy is one of the best premier and iconic pharmacy college established in 2007 by M.A.M Memorial service society with a group of eminent academicians and professionals from different fields with a mission to offer quality education with a motto to provide education to all and contribute it self to the millennium development goals. Since its inception, with in a short time the college has been upgraded to PG level of education.

Courses Offered:

B.PHARMACY – 4 YEARS

PHARM.D – 6 YEARS

M.PHARMACY

PHARMACEUTICS

PHARMACEUTICAL ANALYSIS

PHARMACOLOGY

Objectives of the Programme:-

Graph theory might sound like an intimidating and abstract topic to you, so why should you even spend your time reading an article about it? However, although it might not sound very applicable, there are actually an abundance of useful and important applications of graph theory! In this article, I will try to explain briefly what some of these applications are. In doing so, I will do my best to convince you that having at least some basic knowledge of this topic can be useful in solving some interesting problems you might come across.

Topics Covered:-

- α -Discrepancy and Strong Perfectness
- Braess' Paradox in Transport Networks
- Hazard Assessment of Infrastructures for Smart Evacuation Based on Unified Networks
- The Probabilistic Method for Domination Parameters
- Decomposition Methods for the Reconstruction Conjectures
- Embedding Graphs on Topological Surfaces
- Development and Mining of a Comprehensive Database of Graph Invariants
- Graph-Theoretic Conjectures and the Computer System GRAPHOGRAPH
- Man-Machine Approach to Investigation into

Objectives of the Programme:-

This Manual is intended to provide detailed information to the public and users of Design Registration System on the practice and procedures followed by Designs Wing of the Indian Patent Office, for processing of Design Applications and other related procedures. The primary objective of this manual is to streamline the procedure in the Designs Wing and to make the system more transparent and efficient. The Manual is based on the provisions of Designs Act, 2000 and the Designs Rules, 2001 as amended in 2008.

Topics Covered:-

- Introduction
- Important definitions
- Filing of Design Application
- Examination and registration of designs
- Patent Office Journal
- Piracy of registered designs and consequences thereof
- Post registration procedures
- Transfer of rights
- General Services
- Use and acquisition of registered design by Government
- General powers of Controller
- Evidences etc.

Kesanupally, Narasaraopet-522601

(Approved by PCI, New Delhi & Permanently Affiliated to Acharya Nagarjuna University)
(Recognized Under UGC Section 2F & 12B of UGC Act)
Mobile: 9848-498714 / 9951-420612 | email: prins2mam@gmail.com
Website: www.mamcollegeofpharmacy.ac.in

About College :-

Medarametla Anjamma Mastanrao (M.A.M) College of Pharmacy is one of the best premier and iconic pharmacy college established in 2007 by M.A.M Memorial service society with a group of eminent academicians and professionals from different fields with a mission to offer quality education with a moto to provide education to all and contribute it self to the millennium development goals. Since its inception, with in a short time the college has been upgraded to PG level of education.

Courses Offered:

B.PHARMACY – 4 YEARS

PHARM.D – 6 YEARS

M.PHARMACY

PHARMACEUTICS

PHARMACEUTICAL ANALYSIS

PHARMACOLOGY

Objectives of the Programme:-

Objectives of intellectual property refer to the purposes of protection granted to creators of innovative intellectual creations. Intellectual property (IP) rights serve the important purpose of ensuring that creators will be recognized for their efforts and protected from infringement. When they are sure that their works are protected, creators are more likely to come up with more new creations. As such, IP also helps to promote creativity and innovation. There are many different forms of IP, each of which is protected by a certain type of IP rights.

PHARM.D – 6 YEARS

M.PHARMACY

PHARMACEUTICS

PHARMACEUTICAL ANALYSIS

PHARMACOLOGY

Objectives of the Programme:-

- 3D printing can help your business with prototyping or low-volume manufacturing. It also have applications in design, biomedical devices and mechanical parts.
- You should guarantee your supply chain and product quality to protect against unlicensed 3D printing. You should also hire only people with skills and experience relevant to your 3D printing projects.
- Your small business could benefit from a 3D printer, such as the Original Prusa MINI,Ultimate S3 or Any cubic Viper.
- This article is for small business owners who manufacture products and are interested in 3D printing.

Topics Covered:-

- ✓ What is 3D printing?
- ✓ Applications for 3D printers
- ✓ Copyrights and 3D printing
- ✓ The future of the industry
- ✓ Top 3D printer picks for at-home small businesses
- ✓ What the state of 3D printing means for small business

M.PHARMACY

PHARMACEUTICS

PHARMACEUTICAL ANALYSIS

PHARMACOLOGY

Objectives of the Programme:-

Quantitative research templates are objective, elaborate, and many times, even investigational. The results achieved from this research method are logical, statistical, and unbiased. Data collection happened using a structured method and was conducted on larger samples that represent the entire population.

Topics Covered:-

- Quantitative research characteristics
- Quantitative research examples
- What are the advantages of quantitative research?
- Best practices to conduct quantitative research
- Primary Methods
- Data collection methodologies: Using surveys & polls
- Data analysis techniques
- Techniques and Types of Studies
- Secondary Methods

Courses Offered:

B.PHARMACY – 4 YEARS

PHARM.D – 6 YEARS

M.PHARMACY

PHARMACEUTICS

PHARMACEUTICAL ANALYSIS

PHARMACOLOGY

Objectives of the Programme:-

Analytical method development, validation, and transfer are key elements of any pharmaceutical development program. This technical brief will focus on development and validation activities applicable to drug products. Often considered routine, the benefit that well-developed analytical methods can contribute to the overall developmental time and cost efficiency of a program is undervalued.

Topics Covered:-

- *Introduction to Spectroscopy*
- *UV-Vis Spectroscopy*
- *Introduction to Chromatography*
- *HPLC*
- *Analytical Method Development*
- *Validation*
- *Importance of Validation*
- *Types of Analytical Procedures to be Validated*

PHARMACOLOGY

Objectives of the Programme:-

Research is an integral part of many occupations, making it a valuable career skill. Research objectives, which are specific outcomes that you aim to achieve through research, can drive your projects and help you achieve your overall goals. If your job involves conducting research, knowing how to develop research objectives is a crucial skill. In this article, we discuss the definition and purpose of research objectives and explore steps you can follow to write your own research objectives.

Topics Covered:-

- Proofread and review your objectives
- How to write research objectives
- Pinpoint the major focus of your research
- Break down your research focus into research objectives
- Write your research objectives in the SMART format
- Tips for writing your research objectives
- Keep your number of objectives limited
- Use action verbs
- Be realistic

A ONE DAY SEMINAR
ON

ROLE ON INTELLECTUAL PROPERTY
IN TECHNOLOGICAL
INNOVATION & VALUE CREATION

Programme schedule

14.10.2017

Organized by:-

**MEDARAMETLA ANJAMMA MASTAN
RAO COLLEGE OF PHARMACY**

(Approved by AICTE, PCI & Affiliated to ANU)
ISO 9001 : 2008 & UGC 2(F) & 12(B)

**-:Venue:-
Seminar Hall**

M.A.M COLLEGE OF PHARMACY

Kesanupally, Narasaraopet-522601

(Approved by PCI, New Delhi & Permanently Affiliated to Acharya Nagarjuna University)
(Recognized Under UGC Section 2F & 12B of UGC Act)
Mobile: 9848498714 / 9951420612 | email: prins2mam@gmail.com
Website: www.mamcollegeofpharmacy.ac.in

About College :-

Medarametla Anjamma Mastanrao (M.A.M) College of Pharmacy is one of the best premier and iconic pharmacy college established in 2007 by M.A.M Memorial service society with a group of eminent academicians and professionals from different fields with a mission to offer quality education with a motto to provide education to all and contribute it self to the millennium development goals. Since its inception, with in a short time the college has been upgraded to PG level of education.

Courses Offered:

B.PHARMACY – 4 YEARS

PHARM.D – 6 YEARS

M.PHARMACY

PHARMACEUTICS

PHARMACEUTICAL ANALYSIS

PHARMACOLOGY

Objectives of the Programme:-

Technological innovation is one of the principal determinants of business success. Enterprises stand to reap greater benefits from innovation if they consider the full range of intellectual property (IP) issues in new product development. Effective use of the tools of the IP system reduces risk and facilitates the process of taking innovative technology to the market place, while at the same time enhancing the competitiveness of technology-based enterprises.

Topics Covered:-

- Invention or innovation
- The idea stage
- R&D stage
- Outsourcing
- IP as a lifeline
- Marketing of Innovations

M.PHARMACY

PHARMACEUTICS

PHARMACEUTICAL ANALYSIS

PHARMACOLOGY

Objectives of the Programme:-

The idea of working from anywhere in the world and making extra income while you sleep is always very enticing, isn't it? And it always comes up when we talk about digital entrepreneurship. After all, in the Internet world, you don't have to be physically present when a sale is made. And we have several examples in the market of people who have managed to turn this wish into reality.

Topics Covered:-

- Create a financial plan.
- Identify your strengths.
- Choose your niche and the type of product you will offer.
- Analyze the market and your competitors.
- Get your own domain.
- Create a prototype of your idea.
- Promote your business.

Courses Offered:

B.PHARMACY – 4 YEARS

PHARM.D – 6 YEARS

M.PHARMACY

PHARMACEUTICS

PHARMACEUTICAL ANALYSIS

PHARMACOLOGY

Objectives of the Programme:-

Legal education is a human science which furnishes beyond techniques, skills and competences the basic philosophies, ideologies, critiques, and instrumentalities all addressed to the creation and maintenance of a just society. It provides occasions for articulation of theories of a just society and teaches us that articulation must be grounded in historical realities so that the truth of the working of the legal order is brought to the forefront. It is a subject of great importance in view of its dynamic role in moulding and envisioning the legal system of the country-thus being instrumental in the accomplishment of the cherished objectives of justice, liberty, equality and fraternity of a sovereign, socialist, secular, democratic republic. Legal education is a broad concept

Topics Covered:-

- *Lecture Method of Teaching - Merits and demerits*
- *The Problem Method*
- *Discussion method and its suitability at postgraduate level teaching*
- *Examination system and problems in evaluation - external and internal*
- *Research Methods*
- *Socio Legal Research*
- *Doctrinal and non-doctrinal*
- *Relevance of empirical research*

Outcome of programme:

The students and faculty learned about Interface between IPR and Competition Law in India .They gain the knowledge onthe interaction between IPR and Competition Policy is neither conflicting nor they aim to replace each other; in fact they both complement each other. The common objective of both laws is to promote innovation. The advent of fresh innovations gives rise to healthy competition at macro as well as micro economic levels which further leads to more competition for innovation, which eventually results in economic development of the country. However this should not be to the detriment of the common public. For this the competition authorities need to ensure the co-existence of competition policy and IP laws since a balance between both laws would result in an economic as well as consumer welfare.

Outcome of programme:

The students and faculty learned about Interface between IPR and Competition Law in India. They gain the knowledge on to be successful in sustainable business practices often requires entrepreneurship and innovation. This chapter provides an overview of entrepreneurship and innovation as it relates to sustainable business. The discussion is most relevant to sustainable businesses focused on offering new products and services in response to societal concerns. The importance of entrepreneurship and innovation also applies to companies that change how they produce products and services. The latter companies can use innovative practices and entrepreneurship to establish their brand name and to be market leaders in doing things that create shared value for society and their companies and also, over time, contribute to changes in practices in their industry.

M.PHARMACY

PHARMACEUTICS

PHARMACEUTICAL ANALYSIS

PHARMACOLOGY

Objectives of the Programme:-

Intellectual Property is that property that is developed by the human mind and by human intellect. Now intellectual property and rights attached to intellectual property are becoming very precious and valuable. In India, there are well-established administrative, statutory, and judicial frameworks for protecting IPR. India has to comply with the Agreement on Trade-Related Intellectual Property Rights (“TRIPS”) by enacting the necessary statutes. Intellectual Property rights deal with Trademark, Copyrights, Patents, and Geographical Indications of goods. The law protecting some special species of Intellectual property rights in India

Topics Covered:-

Intellectual property rights and economic development:

- *The Purposes and Mechanisms of Intellectual Property Rights.*
- *Endogenous IPRS*
- *Positive Impacts of IPRS on Economic Development*
- *Negative Impacts of IPRS on Economic Development*
- *Evidence on the Overall Impact of IPRS on Growth*

Benefiting from intellectual property rights:

- *Implementing Precompetitive IPRS Standards*
- *Enhance Capacities to Develop and Use IPRS*
- *Promote Competitive markets*
