PHARMACOLOGY

About IPA:-

Indian Pharmaceutical Association (IPA) is the National body representing over 1 million pharmacists and pharmaceutical scientists from Industry, Academia, Regulatory, Hospital and Community Pharmacy and work to meet the India's health care needs. IPA is a nongovernmental organization that has been in official relations with the FIP, FAPA and WHO. IPA is member of Drug Technical Advisory Board (DTAB), Ministry of Health and Family Welfare, Government of India. IPA has been awarded "Best Professional Organization Award - 2015" by Indian Association Congress.

About the Programme :-

It is a one week offline Faculty Development Program. The Program aims at enhancing the academic and intellectual environment in the Institutions by providing faculty members with enough opportunities to pursue research and also to participate in seminars / conferences / workshops.

Objectives of Programme:-

Medarametla Anjamma Mastan Rao College of Pharmacy had successfully organised A Five Days Faculty Development Program on Newer Advancements in Clinical pharmacy Practice to Facilitate Pharmaceutical Care to Patients. The main objective of the program is to enhance the quality of patient care by developing an inter professional relationship.

Topics covered:-

- Medication chart review
- Clinical review
- Medication therapy management.
- Therapeutic drug monitoring

- **Department:** Pharmaceutical Analysis
- **Organisation:** Victoria College of Pharmacy, Nallapadu, Guntur
- **Email Id:** narasimha24876@gmail.com
- **Contact Number:** 9949214331

Objective: MedarametlaAnjammaMastan Rao College of Pharmacy had successfully organised Aa Five days faculty development program on Recent advances in pharmaceutical analysis. The main objective of the program is to develop an analytical method coupled with each other, is useful for the investigation of behaviour of drugs or metabolites or impurities and is also a useful tool for sensitive detection.

Topics Covered:

- Instrumentation of LC-MS/MS
- Raman spectroscopy
- Electrophoresis

Outcome of the Programme: Open feedbackforms were collected from the faculty members and they convey that the program was extremely helpful for covering the topics related to the role of analytical methods and their validation importance in quantification of drugs from their dosage forms or biological samples.

About College :-

Medarametla Anjamma Mastanrao (M.A.M) College of Pharmacy is one of the best premier and iconic pharmacy college established in 2007 by M.A.M Memorial service society with a group of eminent academicians and professionals from different fields with a mission to offer quality education with a motto to provide education to all and contribute itself to the millennium development goals. Since its inception, with in a short time the college has been upgraded to PG level of education.

Courses Offered:

B.PHARMACY – 4 YEARS

PHARM.D – 6 YEARS

M.PHARMACY

PHARMACEUTICS

PHARMACEUTICAL ANALYSIS

PHARMACOLOGY

About Programme:-

The Faculty Development Program (FDP) is intended to provide financial support to facilitate the updating of knowledge, skills and to provide introductory training opportunities to teachers employed in a variety of fields. The program aims to improve the academic and intellectual environment of the institution by providing opportunities for faculty members to conduct research work. This program is designed to improve teaching and other skills of faculty and keeping them up to date with the latest materials and methods. Provides an opportunity to acquire knowledge of current technological developments in pharmaceutical fields. It is not only to encourage professional practice related to technical education, but also motivate the faculty to create a competitive teaching and learning environment.

Objective: MedarametlaAnjammaMastan Rao College of Pharmacy had successfully organised.A One Week Faculty Development Program on Use of Quality by Design Techniques in Formulation Research and Development. The main objective of the program is to achieve meaningful product quality specifications that are based on clinical performance.

Topics Covered:

- Define the quality target product profile
- Identify the quality attributes
- Perform a risk assessment analysis

Outcome of the Programme: An open feedback was collected from the faculty members and they convey that the program was extremely helpful for covering the topics related to increase the process capability and reduce product variability and defects by enhancing product and process design, understanding and control.

About Programme:-

The Faculty Development Program (FDP) is intended to provide financial support to facilitate the updating of knowledge, skills and to provide introductory training opportunities to teachers employed in a variety of fields. The program aims to improve the academic and intellectual environment of the institution by providing opportunities for faculty members to conduct research work. This program is designed to improve teaching and other skills of faculty and keeping them up to date with the latest materials and methods. Provides an opportunity to acquire knowledge of current technological developments in pharmaceutical fields. It is not only to encourage professional practice related to technical education, but also motivate the faculty to create a competitive teaching and learning environment.

PROGRAMME REPORT

Name of the Programme: A Five days faculty development program on Artificial intelligent- Pharmaceutical Applications, Current Changes and Future Directions.

Date: 06.03.2018 to 10.03.2018

Details of the Resource Person

- **Name:** Dr.B. Appa Rao
- **Designation:** Professor
- **Department:** Pharmaceutics
- **Organisation:** Victoria College of Pharmacy, Nallapadu
- **Email Id:** vcpprincy@yahoo.com
- **Contact Number:** 9581357872

Objective: Medarametla Anjamma Mastan Rao College of Pharmacy had successfully organised A Five days faculty development program on Artificial intelligent- Pharmaceutical Applications, Current Changes and Future Directions. The main objective of the program is to reduce the human work load as well as achieving targets in a short period of time regarding drug discovery development, drug repurposing and clinical trails, to increase pharmaceutical productivity.

Topics Covered:

- Over view of artificial intelligence in drug discovery and development.
- Net works and tools involved
- Artificial intelligence in the life cycle of pharmaceutical products

Outcome of the Programme: An open feedback was collected from the faculty members and they convey that the program was extremely helpful for covering the topics related to the scope of artificial intelligence in pharmaceutical industries, the implementation of cost effective method to pharmaceutical production by reducing man power.

Objective: Medarametla Anjamma Mastan Rao College of Pharmacy had successfully organised A One Week Faculty Program on Design of Experiments Software-Dosage form Design. The main objective of the program is comparison between number of materials and suppliers, variables or factors screening, system optimization, robust Nance and relation between input variables or factors and output responses.

Topics Covered:

- Quality by design
- Software's like Minitab, design expert, optimum.
- Methodology of conducting design of experiments.

Outcome of the Programme: An open feedback was collected from the faculty members and they convey that the program was how DoE becoming an important tool for the pharmaceutical industry in developing robust, efficient, sensitive and simple analytical or bio analytical methods at minimum expenses and time.

PROGRAMME REPORT

Name of the Programme: A One Week Faculty Development Program on Recent Techniques in Development of Targeted Drug Delivery Systems.

Date: 14.05.2018 to 20.05.2018

Details of the Resource Person

- **Name:** Sk.Amjad Ali
- **Designation:** Associate Professor
- **Department:** Pharmaceutics
- **Organisation:** ASN College of Pharmacy, Tenali
- **Email Id:** amjadali.sk003@gmail.com
- **Contact Number:** 9676731353

Objective: MedarametlaAnjammaMastan Rao College of Pharmacy had successfully organised,A One Week Faculty Development Program on Recent Techniques in Development of Targeted Drug Delivery Systems. The main objective of the program is tocontrolled targeting at the site of action and reduced time of exposure at non-targeting tissues increase the efficacy of treatments and reduce toxicity and side effects thus improving patient compliance and convenience

Topics Covered:

- Immunoconjugates
- Micro sponges
- Nanotechnology

Outcome of the Programme: An open feedback was collected from the faculty members and they convey that the program was extremely helpful for covering the topics different techniques used in drug delivery systems the effort to produce these new drug carrier systems, those carriers provide the hope to treat and diagnose several diseases.

About College :-

Medarametla Anjamma Mastanrao (M.A.M) College of Pharmacy is one of the best premier and iconic pharmacy college established in 2007 by M.A.M Memorial service society with a group of eminent academicians and professionals from different fields with a mission to offer quality education with a motto to provide education to all and contribute it self to the millennium development goals. Since its inception, with in a short time the college has been upgraded to PG level of education.

Courses Offered:

B.PHARMACY – 4 YEARS

PHARM.D – 6 YEARS

M.PHARMACY

PHARMACEUTICS

PHARMACEUTICAL ANALYSIS

PHARMACOLOGY

About Programme:-

The Faculty Development Program (FDP) is intended to provide financial support to facilitate the updating of knowledge, skills and to provide introductory training opportunities to teachers employed in a variety of fields. The program aims to improve the academic and intellectual environment of the institution by providing opportunities for faculty members to conduct research work. This program is designed to improve teaching and other skills of faculty and keeping them up to date with the latest materials and methods. Provides an opportunity to acquire knowledge of current technological developments in pharmaceutical fields. It is not only to encourage professional practice related to technical education, but also motivate the faculty to create a competitive teaching and learning environment.
